Conflict Bidding

Crewmembers this educational document outlines the process set forth for Conflict Bidding specified in Section 25.I.

This month a new functional check box will be added to AIMS Ecrew that will now allow a crewmember to be awarded a line that would result in a conflict. This check box will be labeled as “Allow Award of Conflicted Lines”. When a crewmember “checks” this box he will now be able to be awarded or assigned a line that otherwise would not be allowed due to conflicts. This “Allow Award of Conflicted Lines” check box will only be available during the initial bid process and will not be available during VTO bidding. **Written below is a detailed view into how this new function will affect a crewmember when bidding.**

The screenshot displays the 'Bidline Bidding' interface. At the top, there are navigation icons and the text 'EC06 Appos'. Below this, there are several buttons: 'Record your Bids', 'View Triangle', 'Disable Auto Renumbering', 'Clear Selections', and a checked checkbox 'Allow Award of conflicted Lines (Subject to post-award adjustment)'. A tooltip for the checked checkbox reads: 'Current & Assigned Bid Schedule can be over 17 consecutive workdays. Lines already selected by other crew'. To the right of the checkbox are buttons for 'Sort by selected lines', 'Line Sorting & Filters', and 'View All Trips'. The main area is a calendar grid for March 2019, with days of the week and dates (02 Mar to 29 Mar) as columns. Below the calendar, a table lists lines with their respective schedules. The lines are: 3000.Pa (1), 3001.Pd, 3002.Pd.00, 3003.Pa.00, and 3004.Pd. Each line has a 'Line Sel' checkbox, 'Block Time', 'CRT Rig', 'TAFB', and 'Off Days' columns. The schedule is shown as blue bars and green 'X' marks on the calendar grid. For example, line 3000.Pa has a block from 35:10 to 58:63 on 02 Mar, and a block from 47:20 to 52:82 on 03 Mar. Line 3001.Pd has a block from 58:15 to 54:14 on 04 Mar. Line 3002.Pd.00 has a block from 82:40 to 79:32 on 05 Mar. Line 3003.Pa.00 has a block from 0:00 to 64:66 on 06 Mar. Line 3004.Pd has a block from 1:00 to 320:00 on 07 Mar. The calendar grid shows 'X' marks in green cells, indicating conflicts.
